## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-4 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claims are both novel and useful. Claim 1, and dependent claims 2-4, are directed to a device for isolating cigarettes from a quantity of cigarettes located in a shaft. Claim 1 discloses a pivotal element that includes a flap and a retaining element. The retaining element is a resilient thrust piece. A rotary movement and reverse rotation of the pivotal element enable the flap to both release and hold back cigarettes, respectively. The rotary movement also enables the retaining element to hold back further cigarettes. Those elements and features, in combination with the rest of the claim language, provide a device structure that is patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
